

Children's Defense Fund's

A partnership with HISD and Houston hospitals to link every uninsured child with affordable health coverage

Texas is home to 1.5 million children who do not have health insurance. It is estimated that 22 percent of Houston Independent School District (HISD) students are not insured.

100% Campaign Goal: Link all uninsured students in HISD with affordable health coverage and reduce emergency room costs to local hospitals and property taxpayers.

Children's Defense Fund's **100% Campaign** works to identify uninsured students in HISD through school enrollment forms – completed annually – which now include a question about the medical insurance status of enrolling students. Parents and other guardians of uninsured students can receive help and information from **100% Campaign** staff about applying for health coverage for their children through CHIP or Children's Medicaid – two affordable programs that are helping millions of children to get to see the doctor. Uninsured students who do not qualify for CHIP or Children's Medicaid are also connected to the Harris County Hospital District Financial Assistance Program (Gold Card) and other low-cost community and school-based clinics.

Children's Defense Fund's **100% Campaign** also educates families to understand how to renew their children's health coverage and to learn to utilize preventive care or to call 24-hr nurse hotlines, before seeking care in the emergency room.

For more information about Children's Defense Fund's **100% Campaign** and to partner with us to ensure that every eligible child receives the health coverage they need, please contact CDF Texas Director of Outreach, **Kelli King-Jackson at 713-664-4080 or kkingjackson@childrensdefense.org**.

Children's Defense Fund's 100% Campaign is generously funded by the Houston Independent School District, Memorial Hermann Healthcare System, St. Luke's Episcopal Health Charities and Texas Children's Hospital/Texas Children's Health Plan/Texas Children's Pediatric Associates who want Houston children to get the healthcare they need.

El Fondo para la Defensa de los Niños

Una asociación con HISD y hospitales de Houston para conectar a cada niño a seguro médico económico

1.5 millón de los niños en Texas no tienen seguro médico. Se estima que el 22 por ciento de los estudiantes del Distrito Escolar de Houston no tienen cobertura de seguro médico. Este es aproximadamente como 40,000 niños.

La meta de la Campaña 100%: Ayudar a cada estudiante en HISD obtener cobertura médica y reducir los gastos de las salas de emergencia en hospitales locales y los impuestos locales contribuyentes de propiedad.

La **Campaña 100 %** identificará a estudiantes no asegurados por la forma de inscripción de HISD en que pregunta si el estudiante que se matricula tiene el seguro médico. Las familias de estudiantes no asegurados recibirán el apoyo del personal **de la Campaña 100 %** en como identificarse y matricularse en un programa de seguro médico como el Programa de Seguro Médico de Niños (CHIP) o Seguro de Medicaid para los niños. Los niños que son inelegibles para cualquiera de estos programas pueden recibir servicios con la Tarjeta de Oro del Distrito Hospitalario del Condado de Harris y clínicas locales dentro la comunidad o clínicas dentro de las escuelas.

La **Campaña 100 %** también dará talleres educativos para ayudar a familias a aprender a renovar su cobertura de salud para sus niños y el uso de tratamientos preventivo en vez de utilizar las salas de emergencia como cuidados principales.

Para más información sobre **de la Campaña 100 %** y como ayudarnos a asegurar que cada estudiante de HISD reciba la cobertura de salud, póngase en contacto con:
